## Dear Friends and Colleagues

We have a great pleasure in informing you that we shall be organizing the 1<sup>st</sup> National Conference of Society for Tobacco Control on Smoking Cessation from 29<sup>th</sup> to 30<sup>th</sup> May 2019. Several eminent speakers will deliver lectures on different areas of smoking cessation, COPD and Asthma.

The Vallabhnbhai Patel Chest Institute (VPCI) is a unique postgraduate medical institution devoted to research, teaching and patient care in the field of chest diseases. It is a University of Delhi maintained institution and is funded entirely by the Ministry of Health and Family Welfare, Government of India. The Institute is ideally located in the heart of the main campus of the University of Delhi, providing the requisite academic environment. The institute has made significant scientific and clinical contributions and is well known nationally and internationally. The conference will be held at Paintal Memorial Golden Jubilee Auditorium of Vallabhnbhai Patel Chest Institute.

Tobacco consumption is a huge public health issue. Clinicians and healthcare delivery systems identify and treat tobacco users using available counselling treatments and medications. There is a need to alter practices so that smoking cessation support is systematically and easily provided to all patients who smoke as part of routine care.

The 1<sup>st</sup> National Conference of Society for Tobacco Control on Smoking Cessation is being organized in the capital city under the aegis of Society For Tobacco Control. Two days of scientific activities include certificate course on smoking cessation, plenary lectures, latest developments in the fields of COPD and asthma, panel discussions and visit to the Tobacco Cessation Clinic and National Tobacco Quit Line Services. It will provide you an opportunity to share and gain experience with the well known experts from the field.

We look forward to your active participation in the conference.
