

Pediatric Airway Surgery

[*Advances in Oto-Rhino-Laryngology*; Series Editor: G. Randolph; ISSN 0065-3071]

Edited by: C.J. Hartnick and M.C. Hansen and T.Q. Gallagher; Published by: S. Karger AG, Basel, Switzerland; 2012; Hard Cover; Pages: VIII+252; Price: USD 233.00/CHF 198.00/EUR 165.00; ISBN 978-3-8055-9931-3 and e-ISBN 978-3-8055-9932-0

I had the pleasure of reviewing this book on Pediatric Airway Surgery. The book contains an illustrated account of background knowledge on relevant anatomical details and covers all the essential procedures performed in Pediatric Airways. The book covers endoscopic as well as surgical techniques used on children with airway problems. An illustrated guide to performing surgery on children will go a long way in guiding the young ENT residents and consultants.

The organization of the book, the printing and beautiful illustrations make this a valuable educational resource.
